U.S. Physical Therapy Makes 20 Clinic Acquisition

Management Increases Earnings Guidance for 2011

Houston, TX, July 27, 2011 – U.S. Physical Therapy, Inc. (NASDAQ: USPh), a leading national operator of outpatient physical therapy clinics, has acquired a majority interest in a 20 clinic physical therapy group. The multi-partner practice currently sees approximately 116,000 patient visits per year and produces approximately \$13 million in annual revenue. The purchase price for U.S. Physical Therapy’s 51% acquired interest was \$8,426,000 which was financed with borrowings under the Company’s credit line and a seller note.

Chris Reading, U.S. Physical Therapy’s Chief Executive Officer, stated “We are very excited to welcome our newest, very talented and committed group of partners. Together we believe that we can further expand their already sizeable footprint in a desirable and previously untapped market area for U.S. Physical Therapy.”

In conjunction with the acquisition the Company is increasing its earnings guidance for the year 2011 to be in the range of \$16.6 million to \$17.2 million in net income and \$1.38 to \$1.43 in diluted earnings per share from prior guidance of \$16 million to \$16.6 million in net income and \$1.35 to \$1.40 in diluted earnings per share. The new annual earnings guidance range represents projected net income from existing operations and excludes potential additional future acquisitions. The Company does not provide quarterly earnings guidance. The annual guidance figures will not be updated unless there is a material development that causes management to believe that earnings will be significantly outside the given range.

Forward-Looking Statements

This press release contains statements that are considered to be forward-looking within the meaning under Section 21E of the Securities Exchange Act of 1934. These statements contain forward-looking information relating to the financial condition, results of operations, plans, objectives, future performance and business of our Company. These statements (often using words such as “believes”, “expects”, “intends”, “plans”, “appear”, “should” and similar words) involve risks and uncertainties that could cause actual results to differ materially from those we project. Included among such statements are those relating to opening new clinics, availability of personnel and the reimbursement environment. The forward-looking statements are based on our current views and assumptions and actual results could differ materially from those anticipated in such forward-looking statements as a result of certain risks, uncertainties, and factors, which include, but are not limited to:

- changes in Medicare guidelines and reimbursement or failure of our clinics to maintain their Medicare certification status;
- revenue and earnings expectations;
- general economic conditions;
- business and regulatory conditions including federal and state regulations;
- changes as the result of government enacted national healthcare reform;
- availability and cost of qualified physical and occupational therapists;
- personnel productivity;
- competitive, economic or reimbursement conditions in our markets which may require us to reorganize or close certain clinics and thereby incur losses and/or closure costs including the possible write-down or write-off of goodwill and other intangible assets;
- changes in reimbursement rates or payment methods from third party payors including government agencies and deductibles and co-pays owed by patients;
- maintaining adequate internal controls;
- availability, terms, and use of capital;
- acquisitions, purchase of non controlling interests (minority interests) and the successful integration of the operations of the acquired businesses; and
- weather and other seasonal factors.

Many factors are beyond our control. Given these uncertainties, you should not place undue reliance on our forward-looking statements. Please see our periodic reports filed with the Securities and Exchange Commission (the "SEC") for more information on these factors. Our forward-looking statements represent our estimates and assumptions only as of the date of this press release. Except as required by law, we are under no obligation to update any forward-looking statement, regardless of the reason the statement is no longer accurate.
